

**HIS390: Digital History Project**  
**Department of History**  
**Course Duration: Fall 2022 - Winter 2023 (Full Year)**

---

**Course Overview:**

This course entails the creation of a digital history project, such as an interactive website or online archive, centered around a specific historical event or theme. Students will undertake research, curate historical content, and develop digital tools to present their findings.

---

**Learning Objectives:**

- 1. Conduct Research:** Master the skills needed to conduct thorough research on a historical topic.
  - 2. Utilize Digital Tools:** Apply digital tools to build an engaging and interactive digital history project.
  - 3. Curate Content:** Effectively organize and present historical content for an online audience.
  - 4. Evaluate & Present:** Assess the project's effectiveness and present the findings comprehensively.
- 

**Course Timeline & Deliverables:**
